RE: RFLMA Contact Record 2008-01

Dear Mr. Surovchak:

The Colorado Department of Public Health and Environment (CDPHE) has reviewed RFLMA Contact Record 2008-01, which reports the surface water and sediment sampling done in support of the requirements in the Rocky Flats Legacy Management Agreement (RFLMA). The Contact Record concludes that no further sampling is necessary to meet the RFLMA requirements. CDPHE has conferred with Region 8 of the Environmental Protection Agency and approves this contact record.

Please note that the purpose of the additional sampling was to remove gaps in the data set, not to remove all the uncertainty related to that data. Continued reporting of any adverse biological conditions – either to receptors themselves or changes to ecological conditions that affect the receptors – is still recommended.

Please contact me if you have any questions concerning this approval.

Sincerely,

Carl Spreng
RFLMA Project Coordinator
